

Seaton Caves M. Lawson
West. Hartlepool
Lawson 7. ~~7~~. 1880

Dear Dr. Gray

I am sorry not to
have answered your letter of
the 3 & 4 instants before
this, but I have been for
a walk thro' the Westmorland
Lakes & was only just-
settled to them.

We have at Oxford all
Morrison's plants & I don't
doubt but that the one

you want to see stee
exists in his Herbarium -
I shall be most happy to
let you see it at Kew.

I have, however, no one at
Oxford, who would know how
to find it in my absence, &
so cannot send it you at
once - but I return home
tomorrow (Saturday) week, &
as I hope to be in Kew
on the following Tuesday I
will bring it with me then.

I am
very truly yours
R. L. Lawson
